University of Cyprus
Department of Psychology

MADLab
Memory & Attention Development Lab

A postdoctoral position is available at the Memory and Attention Development Lab at the Department of Psychology, University of Cyprus. The postdoctoral scientist will be working on funded research projects investigating the neural mechanisms underlying attention and working memory from childhood to young adulthood using EEG. The position is for one year, full-time, with the possibility of extension. The postdoc will be working closely with the principal investigator and collaborating with other members of the lab as needed. The expected starting date is September 1st 2022 (or as soon as possible thereafter). The position will be open until filled, however, priority will be given to applications received by **July 20th, 2022**.

The Memory and Attention Development Lab (MADLab), led by Dr Andria Shimi, studies cognition (with a particular focus on visual attention and visual working memory) in typically developing/healthy individuals and clinical populations using both experimental methodologies and standardised tests as well as carries out translational research in other domains such as Sports Science. More information about the lab can be found at www.madlabcy.com.

The ideal candidate should hold a PhD (or have submitted but not yet received their PhD) in Cognitive Neuroscience, Psychology, or a closely related field, strong skills and experience with EEG/ERP methods, strong quantitative and programming skills, excellent communication, interpersonal, and organisational skills, ability to work independently, and excellent knowledge of spoken and written English. Prior research experience with children and documented research experience with publications in peer-reviewed journals will be considered an advantage. Research responsibilities involve data collection and analyses with EEG techniques, designing and programming experimental tasks, conducting literature reviews, manuscript preparation, and assisting with day-to-day project management under the supervision of the PI.

Applications including a cover letter, a detailed curriculum vitae, copies of degree certificates, and names/contact details of two academic referees should be sent, in PDF format, by e-mail to Dr Andria Shimi at shimi.andria@ucy.ac.cy. For more information, please contact Dr Shimi (shimi.andria@ucy.ac.cy). In case the PhD has yet to be awarded, the appointment will initially be made at the Graduate Research Assistant level and amended to a postdoctoral scientist when the PhD is awarded (PhD needs to be awarded within 6 months of the start date).

University of Cyprus

The University of Cyprus is the oldest university in Cyprus and it is located in Nicosia (the capital of the island). It is dedicated to excellence and continuous development and today, it is ranked 67th young university (under 50 years) by the Times New Higher Education Rankings. Cyprus is the third largest island in the Mediterranean, with a warm climate all year around.

The University of Cyprus collects and processes personal data according to the provisions of the General Regulation on Personal Data 2016/679 (EU). The University of Cyprus (UCY) is committed to promoting inclusivity, diversity, and equality, as well as the elimination of all forms of discrimination in order to provide a fair, safe, and pleasant environment for the entire university community, where students and staff members will feel supported both in their professional and personal development, within and beyond their multiple identities. To this end, UCY seeks to create the necessary conditions that will encourage and respect diversity, and ensure dignity both in the workplace and society at large. Moreover, UCY has adopted specific policies to promote equal opportunities, as well as respect and understanding of diversity, while it is committed to promoting and maintaining a working, teaching, and learning environment, free from any form of discrimination, whether direct or indirect.
